The corporate governance of Toyobo Co., Ltd. (hereinafter referred to as the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Views

The Company, to respond to the changing times and enhance sustainable corporate value, has established the policies of (1) ensuring timeliness and accuracy in decision-making, (2) ensuring transparency in management, and (3) emphasizing fairness. Based on these principles, we are working to strengthen group governance structure, as well as bolster risk management and compliance structures.

[Reasons for Non-compliance with the Principles of Japan’s Corporate Governance Code]

The Company complies with all principles of Japan’s Corporate Governance Code.

[Disclosure Based on the Principles of Japan’s Corporate Governance Code]

[Principle 1-4 Cross-Shareholdings]

The Company shall periodically review cross-shareholdings from assorted perspectives, such as the impact on improving medium- to long-term corporate value and economic rationality, and sell any stock which is no longer meaningful as is appropriate. On the other hand, the Company shall enter into cross-shareholdings with key business partners when judging that the maintenance and strengthening of stable relationships with the business partners will contribute to sustainable growth and enhancement of medium- to long-term corporate value of the Company.

The Board of Directors individually reviews cross-shareholdings every year, including future business strategies and operational relationships, and determines whether or not to continue holding these shares.

Also, with regard to the exercise of voting rights in cross-shareholdings, the Company deeply considers the status of the business partner and the content of the proposals, and as needed, discusses with the business partner. The Company thereby confirms whether these holdings contribute to the sustainable growth and medium- to long-term enhancement of corporate value of the Company and its business partner, and makes a comprehensive decision.

[Principle 1-7 Transactions among Related Parties]

Competitive transactions and transactions involving conflicts of interest between the Company and Directors must be approved at the meeting of the Board of Directors according to laws and regulations, and internal rules. When this transaction is carried out, important facts shall be reported to the Board of Directors. Because there is no major shareholder who holds 10% or more of voting rights, the

Company has not established approval procedures when conducting transactions with major shareholders.

[Principle 2-6 Roles as Asset Owners of Corporate Pension Plan]

The results of operating reserves of the corporate pension fund has direct impact on the parent entity. Therefore, the Asset Management Committee is comprised of labor side representatives and members selected by the Finance, Accounting and Control, and Human Resources departments. This committee regularly monitors the status of asset management and deliberates the following items.

- 1 Matters concerning basic policy of management
- 2 Matters concerning management guidelines and ratios of policy-related asset holdings
- 3 Matters concerning the selection and evaluation of the fund management agencies
- 4 Other matters concerning asset management

The Company is taking efforts to construct a system which enacts proper management, including appointment of personnel with appropriate qualities in the executive director of operations of the corporate pension fund and regularly undergoing rotation, as well as regularly sending officers and employees to a pension seminar run by an outside institution to improve quality. In addition, regarding the exercising of voting rights by entrusted fund management agencies for proposals submitted at a General Meeting of Shareholders of the Company, the system appropriately manages conflicts of interest between the Company and beneficiaries by respecting the judgment of the entrusted fund management agencies and allowing labor union participation in the Asset Management Committee and Board of Representatives.

[Principle 3-1 Enhancement of Disclosure]

The Company maintains a corporate philosophy based on the words the founder Eiichi Shibusawa lived by: “Jun-Ri-Soku-Yu (realizing prosperity by acting rationally)” Please refer to the Company’s website for information about “Jun-Ri-Soku-Yu.”

Supplementary Explanation

At the Board of Directors meeting held on April 24, 2020, the Company resolved that upon the expiry of the effective period of “Countermeasures Against Large-Scale Purchases of the Company’s Shares” (hereinafter the “Existing Plan”), which was at the conclusion of the Annual General Meeting of Shareholders held on June 24, 2020, it would not to continue and abolish the Existing Plan.

The basic policy on ideal person who has control over decisions on the Company’s financial and business policies after the abolition of the Existing Plan is as follows.

(1) Basic policy on ideal person who has control over decisions on the Company’s financial and business policies

The Company believes that since the Company allows the Company shares to be freely traded as a listed company, the decision on whether to accept or reject any large-scale purchases that involve a transfer of control over the Company should be ultimately decided based on the shareholders’ will.

However, some large-scale purchase actions include those that aim to realize the profits of the large-scale purchaser at the expense of the Company and those that may actually force shareholders to sell their shares. We believe that there are some that may impair corporate value and, in turn, the common interests of shareholders.

As for the person who has control over decisions on its financial and business policies, the Company believes that anyone who engages in a large-scale purchase or similar activities that may impair the corporate value of the Company and, in turn, the common interests of shareholders as described above, is not appropriate. The Company believes that a person who has a sufficient understanding of the Company’s finances, basic philosophy, business activities and core technologies, and aims to increase corporate value and, in turn, the common interests of shareholders from a long-term perspective is appropriate.

(2) Special efforts for realization of the basic policy

a. Efforts to improve corporate value by promoting the medium-term management plan

The Company was founded as a cotton spinning business, and thereafter expanded its business to chemical textiles and synthetic fibers. The Company later entered into the markets of films, functional polymers, ultrahigh strength polyethylene fiber, functional membranes and enzymes for diagnostics, and has continued to expand its specialty businesses as represented by these products. In the course of its long history, the Company has nurtured and developed its core technologies, namely, “Polymerization,” “Modification,” “Processing,” and “Biotechnology.” The Company has established a business model that responds to meticulous demands of customers with an integrated marketing, development and production segment. Under this business model, the Company has been steadily executing the medium-term management plan, aiming to maintain and expand its businesses in order to further place the Company on the path to growth.

b. Efforts to improve corporate value by strengthening corporate governance

Under our corporate philosophy of “Jun-Ri-Soku-Yu,” the Company has established an appropriate corporate governance system according to the Company’s position, and through various measures such as the medium-term management plan, we will address social issues. In addition to contributing to the solution of the above, we will strive to improve economic value and enhance corporate value.

(3) Measures to prevent decisions on the Company’s financial and business policies from being controlled by persons deemed inappropriate under the basic policy

In the event of a large-scale purchase, the Company will make efforts to secure sufficient information and time for consideration so that shareholders can properly judge the pros and cons of the large-scale purchase. The Company will take appropriate measures within the range permitted by the Financial Instruments and Exchange Act, the Companies Act and other related laws and regulations.

- (4) The reasons why the specific efforts described in (2) and (3) above are in line with the basic policy, do not impair the common interests of the shareholders of the Company, and are not intended to maintain the position of the Company's officers

The specific efforts described in (2) above are based on the medium- to long-term management strategy for continuously improving the corporate value of the Company and, in turn, the common interests of shareholders, and are in line with the basic policy of (1) above.

In addition, the specific efforts described in (3) above are to take measures for shareholders to appropriately judge the propriety of a large-scale purchase of the Company's shares when a large amount of the Company's shares are to be purchased. It is intended to maintain and improve the corporate value of the Company and, in turn, the common interests of shareholders and is in line with the basic policy of (1) above.

Therefore, we believe that these efforts do not impair the common interests of the Company's shareholders, nor are they intended to maintain the position of the Company's officers.
