1. Qualitative Information and Financial Statements

(1) Qualitative Information on Consolidated Results

In the business environment surrounding the Toyobo Group (hereinafter "the Group") in the six months ended September 30, 2024, in the United States, steady economic activity was supported by consumer spending amid a change to lowering the policy interest rate as price inflation slowed. In China, the economy remained weak due to a downturn in internal demand with factors including a prolonged real estate recession and weak consumption. In Japan, the economy has recovered moderately due to increased inbound tourism demand and expansion of capital investment amid a hike in the policy interest rate. Looking ahead, the business environment is expected to be impacted by raw material and fuel price fluctuations due to the destabilization of the international situation and by economic trends in China, the United States, and others.

Under this business environment, a full-fledged recovery in demand for mold releasing film for multilayer ceramic capacitors (MLCC) and packaging film failed to materialize despite the moderate recovery in cargo movement. On the other hand, polarizer protective films for LCDs "COSMOSHINE SRF" and volatile organic compound (VOC) recovery equipment used in the manufacturing process for lithium-ion battery separators and traditional Arabic fabric remained steady.

As a result, consolidated net sales in the six months ended September 30, 2024 increased ¥9.7 billion (4.9%) over the same period of the previous fiscal year, to ¥209.2 billion. Operating profit increased ¥4.6 billion (193.5%), to ¥6.9 billion and ordinary profit increased ¥2.1 billion (206.5%) to ¥3.2 billion. Profit attributable to owners of parent decreased ¥1.9 billion (94.3%), to ¥0.1 billion.

Results by business segment were as follows:

Films

In the packaging film business, there was a moderate recovery in cargo movement, and the Company made progress on product price revisions for raw material and fuel prices; however, higher costs, mainly for new product development expenses, had an impact.

In the industrial film business, sales of mold releasing film for MLCC were sluggish as a full-fledged growth in demand failed to materialize despite the end of inventory adjustments throughout the supply chain. Sales of polarizer protective films for LCDs "COSMOSHINE SRF" were steady.

As a result, sales in this segment increased ¥4.8 billion (6.1%) from the same period of the previous fiscal year to ¥82.8 billion, and operating profit increased ¥1.6 billion (110.4%) to ¥3.0 billion.

Life Science

In the biotechnology business, sales of enzymes for diagnostic reagents were strong both in Japan and overseas, but expenses associated with the expansion of production capacity increased.

In the medical materials business, demand for artificial kidney hollow fiber trended strong, but an increase in expenses to launch a new plant, in addition to increased manufacturing costs, had an impact.

In the contract manufacturing business of pharmaceuticals, profitability improved as a result of the lifting of the Warning Letter by the FDA.

As a result, sales in this segment increased ¥0.6 billion (3.9%) from the same period of the previous fiscal year to ¥17.2 billion, and operating profit decreased ¥1.5 billion (62.2%) to ¥0.9 billion.

Environmental and Functional Materials

In the resin and chemical business, sales of engineering plastics increased for automotive use for the North and Central America. Sales of photo functional materials for water-wash photosensitive printing plates increased, mainly in China.

In the environment and fiber business, environmental solutions sales of VOC recovery equipment and replacement elements used in the manufacturing process for lithium-ion battery separators increased. In addition, sales of brine concentration membrane equipment for lithium recovery contributed. In high performance fibers, overseas demand was steadily captured to achieve strong performance.

As a result, sales in this segment increased ¥2.7 billion (5.1%) from the same period of the previous fiscal year to ¥55.2 billion, and operating profit increased ¥3.0 billion (806.9%) to ¥3.4 billion.

Functional Textiles and Trading

In the textile business, sales of traditional Arabic fabric grew due to strong demand, and exports saw an uptick in profitability due to the effect of exchange fluctuations. In addition, profitability improved as a result of reforms of business structure such as the consolidation of production bases in Japan.

In the airbag fabric business, profitability improved as product price revisions proceeded.

As a result, sales in this segment increased ¥2.3 billion (5.0%) from the same period of the previous fiscal year to ¥47.9 billion, and operating profit of ¥0.1 billion (compared with operating loss of ¥0.9 billion for the same period of the previous fiscal year).

Real Estate and Other Business

This segment includes infrastructure-related businesses such as real estate, engineering, information processing services, and logistics services. Results in these businesses were generally in line with plans.

As a result, sales in this segment decreased ¥0.6 billion (9.7%) from the same period of the previous fiscal year to ¥6.0 billion, and operating profit decreased ¥0.2 billion (15.9%) to ¥1.2 billion.

(2) Analysis of Financial Position

Assets, Liabilities and Net Assets

Total assets decreased ¥3.8 billion (0.6%) from the end of the previous fiscal year, to ¥603.2 billion. This was mainly due to a decrease in cash and deposits, notes and accounts receivable – trade, despite an increase in property, plant and equipment due to capital investment.

Total liabilities decreased ¥2.6 billion (0.7%) to ¥374.3 billion. This was mainly due to a decrease in notes and accounts payable – trade, electronically recorded obligations - operating, despite an increase in borrowings.

Net assets decreased ¥1.2 billion (0.5%) from the end of the previous fiscal year, to ¥228.9 billion due to a decrease in retained earnings because of dividends paid and other factors, despite an increase in non-controlling interests.

Cash Flows

Net cash provided by operating activities amounted to ¥17.1 billion in the subject first half period. This was mainly due to depreciation of ¥11.2 billion and a cash increase of ¥2.9 billion due to a decrease in trade receivables, as well as profit before income taxes of ¥2.3 billion.

Net cash used in investing activities amounted to ¥24.3 billion. This was mainly due to purchase of property, plant and equipment and intangible assets of ¥24.6 billion.

Net cash provided by financing activities amounted to ¥1.3 billion. This was mainly due to proceeds from long-term borrowings of ¥30.6 billion and proceeds from issuance of bonds of ¥17.0 billion, and net decrease in short-term borrowings of ¥19.8 billion, redemption of bonds of ¥15.0 billion, repayments of long-term borrowings of ¥5.3 billion and dividends paid of ¥3.5 billion.

As a result, the balance of cash and cash equivalents at the end of the subject first half (September 30, 2024) stood at ¥27.1 billion, a decrease of ¥6.2 billion from the end of the previous fiscal year (March 31, 2024).

(3) Forecast for Fiscal 2025 (Ending March 31, 2025)

The performance of the Group in the six months ended September 30, 2024 was generally as forecast. Regarding the consolidated earnings forecast for fiscal year ending March 31, 2025, no changes have been made in the outlook announced on May 13, 2024.
